

## **SidePlate Systems, Inc. Named a 2014 “Best Firm to Work For” in This Year’s ZweigWhite Rankings**

*SidePlate’s Commitment to Employee Satisfaction is Recognized by the  
Leading Provider of AEC Industry Business Information*

**Mission Viejo, CA** – August 12, 2014 – [SidePlate](#)®, a [Berkshire Hathaway](#) company (NYSE: [BRK-A](#), NYSE: [BRK-B](#)) that designs innovative steel lateral frames, today announced that [ZweigWhite](#) has named SidePlate one of the Best Firms to Work For in their [2014 rankings](#).

ZweigWhite is widely regarded as a leading provider of business management information for the AEC industry. Their annual rankings are based on a firm’s management practices and confidential employee surveys that measure job satisfaction, development opportunities, benefits, and overall corporate culture. The ZweigWhite rankings are divided into categories of Civil Engineering, Structural Engineering, Architecture, Environmental Services and Multidiscipline firms. SidePlate is honored to be ranked #4 nationwide in the Structural Engineering category.

“This award is especially meaningful to SidePlate, given that this is our first time participating in such a competition,” said Henry Gallart, SidePlate’s president. “This award indicates that the corporate culture we have so carefully nurtured has indeed created a company that draws and retains passionate, productive employees. We look forward

to continually improving SidePlate's culture of excellence, so that we may continue to set an example for the industry."

## **About SidePlate**

Acting as a free extension of the design team, [SidePlate](#) delivers engineering services for professionals who design, fabricate, and erect steel moment frame and braced frame structures. While providing connection technologies and ongoing support to the engineer, fabricator, contractor, architect, erector, and building owner, SidePlate offers economical solutions for general building applications, as well as for high-performance seismic and blast-resistant designs. Since 1995, SidePlate's technologies and connections have been proven in real-world and laboratory tests for earthquakes, bomb blasts, and progressive-collapse resistance. SidePlate is a [Berkshire Hathaway](#) company (NYSE: [BRK-A](#), NYSE: [BRK-B](#)). Learn more [www.SidePlate.com](http://www.SidePlate.com).
